WELCOME LETTER

The Lebanese Order of Pharmacists is proud to announce the program of the 25th Annual Congress under the theme:

“The Seven-Star Pharmacist: Shaping the Future of Pharmacy in Lebanon”

The 25th Annual Congress program highlights the World Health Organization (WHO) concept previously introduced and implemented in many developed countries.

We, at the Lebanese Order of pharmacists, have the ambition to apply this concept and to do so, we started by creating the necessary platforms to put in place this system:

- The Lebanese Advanced Patient Profile online platform which offers access to needed patients' information in order to help community and hospital pharmacists to better follow up on their patients through the provision of Medication Therapy Management (MTM) services at a later stage
- The Medication Safety Online Platform to be used by community and hospital pharmacists so they could enhance their key role in the practice of medication safety.

This initiative will put emphasis on the pharmacist role in patient care, thus joining the WHO 7-Star concept.

Moreover, the Congress program hosts international and national renowned speakers in addition to suggesting animations and activities related to the roles of the pharmacist.

Hoping you will enjoy and benefit from this rich and diversified program.

Dr. Georges Sili

President,

Lebanese Order of Pharmacists

The 25th Annual Pharmacy Congress

The Seven-Star Pharmacist: Shaping the Future of Pharmacy in Lebanon
